Career Objective

Full Stack Java Developer with 2+ years of experience in designing and developing scalable web applications using Spring Boot, Spring Security, Spring AI, React,Angular and RESTful APIs. Strong understanding of Microservices architecture with hands-on experience in building secure, high-performance, and maintainable applications. Passionate about solving complex problems and delivering business-focused software solutions in dynamic, growth-oriented environments.

Experience

Hindsol Software Private limited **Nov. 2023 – Present**
Full Stack Java Developer *Varanasi, Uttar Pradesh*

- Designed and developed scalable full-stack web applications using Spring Boot, Spring MVC, React.js, and Angular.
- Architected and implemented RESTful APIs with secure integration to MySQL and Oracle databases.
- Rest API testing, validation, and documentation processes using Postman to ensure reliability.
- Designed and optimized responsive UI components using Angular, React.js, Tailwind CSS, and JavaScript for enhanced user experience.
- Implemented and configured Spring Security, including OAuth-based authentication (Email, Google, GitHub).
- Improved database performance using Hibernate ORM with optimized queries and entity mapping strategies.
- Debugged, tested, and optimized code while collaborating with the team using Git/GitHub and code reviews.

Academic/Personal Projects

Enterprise User Management System | *Angular 21, TypeScript, RxJS, REST APIs* **2026**

- Developed a scalable Angular 21-based CRUD application for managing user data with modular and reusable components.
- Implemented Create, Read, Update, and Delete (CRUD) operations with REST API integration and reactive programming using RxJS.
- Utilized Angular Signals and reactive forms for efficient state management and real-time form validation.
- Designed dynamic and responsive UI using Angular directives, component architecture, and Tailwind CSS.
- Implemented service-based architecture with HTTPClient for API communication and error handling.
- Optimized application performance using lazy loading and best practices for scalable frontend architecture.

Store Billing Software | *Java, Spring Boot, React.js, MySQL, JavaScript* **2023**

- Developed a web-based billing software for retail stores to automate product management, billing, and inventory tracking.
- Implemented features including invoice generation, discount handling, and real-time stock updates.
- GitHub: https://github.com/ravi10299/Store-Billing-Software

Personal Portfolio Website | *HTML, CSS, JavaScript* **2023**

- Designed and developed a responsive single-page portfolio application highlighting skills, projects, and contact information
- Portfolio: https://ravi10299.github.io/portfolio/

Education

Kashi Institute of Technology Varanasi **2023**
Bachelor of Technology in Computer Science & Engineering; *Varanasi, Uttar Pradesh*

Jagatpur PG College Varanasi **2020**
Bachelor of Science (Mathematics); *Varanasi, Uttar Pradesh*

Technical Skills

Languages: Java,C, JavaScript, HTML/CSS
Frontend: React.js,Angular 21,Bootstrap, TailwindCSS
Backend: Spring Boot,Spring MVC,Hibernate, REST APIs
Cloud/Databases: MySQL, Oracle (DDL,DML,DQL ,Joins,Function)
Development Tools: IntelliJ IDEA, Git, GitHub, Eclipse, Visual Studio.
Soft Skills: Communication, Teamwork, Adaptability
Areas of Interest: Software Development

Achievement

- Solved 500+ DSA coding problems on platforms like GeeksforGeeks, Hackerrank, Leetcode, and others.
